Tips for Speaking

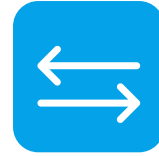

Smooth and clear

Clear speech is vital for accurate AI interpretation.

Do not omit the subject

Always include a subject (I, you, he, she, it, we, they).

Avoid inversion

Subject-Verb-Object (e.g., I eat an apple)

Keep it longer

Speak in longer sentences for better accuracy.

Break off a sentence

Pause clearly between sentences.

Speak to the mic

Speak directly into the microphones at the bottom of the device.

Security on Pocketalk

All conversation contents via Pocketalk are encrypted. In addition, the content of conversations (voice data and text data) captured to provide this service is designed to be deleted immediately after processing. Furthermore, unlike other similar services, neither Pocketalk nor its partners (all providers of speech recognition, translation, cloud services, etc.) will view, use, or analyze the content of your conversations without your consent, nor will it be used to train AI (artificial intelligence).
